THE POLITICAL SITUATION.

**Believed Now That the Mayoralty Contest
Will Be a Triangular Fight.—Rix
Will Positively Run.**

Interest in local political matters is increasing, and it is quite evident that the friends of the various candidates, will wage an aggressive campaign from now until the day of the election.

It is the general belief that ere long, there will be three candidates announced for the office of mayor. The meeting Thursday evening, revealed the fact that the friends of E. W. Greene are not altogether satisfied with the way things were manipulated, and it is thought now that Mr. Greene will run for the office. When seen yesterday afternoon, he would not commit himself as to

whether he had dropped out of the race, or was still in the fight. The words which Mr. Greene did say were, "You have already heard my statement." Mr. Greene told a representative of this paper, more than a week ago, that he would be a candidate.

Street Commissioner James Rix, when seen this morning by a representative of this paper said, "I am positively a candidate for the office of mayor." Mr. Rix said that since the action of the caucus recently held, he did not see how he could decline to run.

The Uncle Sam returned here late yesterday afternoon, from its ten days trip to Palm Beach and Miami. About thirty-five people returned on the craft. The Uncle Sam left Rockledge yesterday morning, at 7:30 o'clock. The boat brought up quite a number of people to see the automobile races.

**Peter Harrison has bought of G. Taylor the scavenger business, and all payments must be made to him hereafter for cleaning cesspools and toilets. Notify him by mail. wim

J. W. Booth has purchased another large Diamondback Rattler, ten feet in length, with fifteen rattles.

ADVOCATES OF GOOD ROADS.

Senator Mann Desires To Confer With Them During Race Week.—Plans For an Active Campaign.

Col. A. S. Mann, the indefatigable worker for good roads, will leave for Ormond-Daytona, Monday, says the Jacksonville Times-Union, not so much to witness the great automobile race-meet as to meet the people of the State who are interested in improving the highways of Florida.

On the subject of securing National aid for the construction of good roads throughout the country, Senator Mann yesterday said:

"Good roads mean so much to us all that at the earliest possible day the most important lines must be constructed. The expense will necessarily be very great, and the best plan to be adopted is one demanding very careful consideration, and it would be advisable at an early day to hold a series of good roads meetings in all of the principal cities of the State, from Jacksonville to Pensacola on the west, and Tampa and Miami on the south, to discuss ways and means and appoint delegates to meet at some time and place so that some organized action covering the law-making body may know just what they are expected to do; meanwhile, without waiting, to do all we possibly can under the present laws.

"I have, with this end in view, requested many of the leading good roads advocates to meet me at Ormond during the races, from the 22d to the 27th, so I may have the benefit of their suggestions in carrying out this work, and calling these meetings."

*The twin-screw, gasoline yacht, Sweetheart, is for sale. 80ft over all; 15ft. beam; 3ft. draft. The Sweetheart is in perfect condition and is a safe and seaworthy proposition, as well as the handsomest, best fitted-out boat in her class. Price \$11,000, which is much less than half her cost. C. G. Burgoyne, 18-1f North Beach Street.

**FLORIDA TIMES-UNION—Seven papers in seven days for 15 cts. Call on Theodore Tice, Halifax Journal office. 4t

MANY ENROUTE TO THE RACES.

Stanley's Fast Time Creates a Sensation at Madison Square Garden. Railroad Officials Rushed.

The reports of Stanley's fast time in 30 3-5 against a strong wind started the fever at Madison Square Garden says a New York dispatch, and scores, in fact hundreds, who had not planned upon going South or who were only lukewarm made up their mind in a hurry. The consequence was that the railroad offices were rushed for transportation and reservations for berths. The travel South will be doubled through this fast trial, for every one wants to see the two miles made in one minute—wants to see the cars come down the wave-washed beach, skimming the tide-rolled sands in their devotion to the "god of go-fast."

No meet ever promoted at the Ormond-Daytona Beach has drawn such general representation from among the newspaper men, press photographers and others. Pretty nearly every prominent paper in the country is to be represented at this meet by its own correspondent. The importance of the event is perhaps attested in no better way than this. H. L. Bowden, at present the Speed King, was at the automobile show yesterday. He said: "I believe that quite a number of the cars will get inside my 32 4-5. I shall have the pleasure of watching them make the run this year, and another year may find me going after the 25-second mark, providing that is the goal to be aimed at."

Following the usual custom, The Daily News will be issued during Race week as a morning paper. The next issue will appear Tuesday morning.

*Choice furnished rooms for rent; modern conveniences; rates reasonable; The Woodlawn, Cor. Ridgewood and Third Avenues. 20-3

THE SWIFT RACING CARS.

Names of the Cars Entered in the Two Mile a Minute Race for the Times-Union Trophy.

Following is the list of the cars that will enter the two mile a minute race, for which no prize will be given unless the speed is attained.

Alfred G. Vanderbilt, 250 horse-power Special; Sartori, driver.

Walter Christie, 110 horse-power; Christie, owner.

Henry Ford, 100 horse-power; Ford, owner.

Darracq & Cie, 200 horse-power; Darracq, Hemery.

A. L. Gaines, 100 horse-power; Darracq, owner.

Hol-Tan Company, 110 horse-power; Fiat; Lancia.

F. E. Stanley, Stanley steamer, owner.

George W. Young, 110 horse-power; Fiat; Fletcher.

Hol-Tan Company, 110 horse-power; Fiat; Cedrimo.

That the required speed will be attained in this previously unattempted race is shown by a trial of Fletcher on Thursday last in the car that Lancia drove on Long Island. Fletcher was timed for three-quarters of a mile in twenty seconds, which is a rate of about twenty-seven seconds for the mile.

From present indications American prestige in automobile building at the Florida carnival will rest with Vanderbilt, Christie, Ford and Stanley. The Christie car is also a product of its owner's inventiveness. So, too, is the freakish steamer that will represent Stanley, which will be simply an improved edition of the famous Ross "Tea Kettle," winner of the Dewar trophy last January. The Ford machines will be along routine lines.

THE TIDES

To-Day.

Low tide at 9:52 this morning.
Low tide at 11:00 this evening.

To-Morrow.

Low tide at 10:56 in forenoon;
Low tide at 11:20 in the evening.

WILL ERECT NEW BUILDING.

Library Association Will Put Up Building on the City Island.—Will Be Made of Concrete Blocks.

The Daytona Library Association has let the contract for a building to be erected on the City Island, to be used as a library and reading room. Work on the structure will commence immediately. Contractor F. B. Penor is in charge of the construction work. The size will be 74 feet long and 31 feet

wide. It will be a 1-story building, and will be made of concrete blocks.

The news of the erection of the building will be hailed with pleasure by the patrons of this institution.

That the new building will revive interest in reading circles is a foregone conclusion.

HAVANA RACE NEWS.

Vanderbilt Entered for all the Races
Belief That he has Great Confidence in his Machine.

Alfred G. Vanderbilt has entered for all of the races at the Havana meet. This is an important announcement. It shows conclusively that Mr. Vanderbilt has every confidence in his huge 250-horsepower car, when he enters it for a hard 228-mile road race there. Must be confidence behind the entry. W. J. Morgan has cabled the entry to the Cuban Automobile Association, and asked that a suite of rooms be reserved for Mr. Vanderbilt and his entire party.

*First-class service, with all white help, at The Myrtle, Myrtle Avenue. 20-23-25

Confidence Expressed

Henry Ford, who has his great 110-horsepower machine entered, is confident that two miles a minute will be beaten. Mr. Ford may decide to drive the car himself, but in all probability Frank Kulick will do most of the driving.

More confidence has been expressed in the Christie car, when it became known that Chevrolet would this year do the driving. Chevrolet is considered America's premier driver, and the new Christie car is very fast.

*Choice furnished rooms for rent; modern conveniences; rates reasonable; The Woodlawn, Cor. Ridgewood and Third Avenues. 20-3

A Poem for Today

A STRAINED LIFE

By Matthew Arnold

MODERATE tasks and moderate leisure,
Quiet living, strict kept measure,
Both in suffering and in pleasure—
'Tis for this thy nature yearns.

But so many books thou readeest,
But so many schemes thou breedest,
But so many wishes feedest,
That thy poor head almost turns.

And (the world's so madly jangled,
Human things so entangled)
Nature's wish must now be strangled
For that best which she discerns.

So it must be! Yet, while leading
A strained life, while overfeeding,
Like the rest, his wit with reading,
No small profit that man earns.

Who through all he meets can steer him,
Can reject what cannot clear him,
Clings to what can truly cheer him;
Who each day more surely learns

That an impulse, from the distance
Of his deepest, best existence,
To the words, "Hope, light, persistence,"
Strongly sets and truly burns.

A Poem for Today

CORONACH

By Sir Walter Scott

He is gone on the mountain,
He is lost to the forest,
Like a summer dried fountain,
When our need was the sorest.
The fount, reappearing,
From the raindrop shall borrow,
But to us comes no cheering,
To Duncan no morrow!

The hand of the weaver
Takes the ears that are hoary,
But the voice of the weaver
Wails unheeded in glory.
The autumn winds rustling
Waft the leaves that are searst;
But our flower was in flushing
When blighting was nearest.

Fleet foot on the corral,
Sage counsel in cumber,
Red hand in the foray,
How sound is thy slumber!
Like the dew on the mountain,
Like the foam on the river,
Like the bubble on the fountain,
Thou art gone, and forever!

The Last Day.

This is the last day in the voting con-
test for the most popular and beautiful
young lady in the State of Florida, to
crown the Speed King of the World at
the Ormond-Daytona international auto-
mobile race next week.

A change in the vote of the leading
candidates has taken place since the an-
nouncement of the standing of the con-
testants was published, and Miss Foote,
of Daytona, now has the honor of lead-
ing the contest. Miss Foote made a
clean gain of 1,831 votes yesterday, and
now has a total of 8,943 votes, and
leads her nearest competitor by 560
votes.

For four days in succession Miss Mary
Simrall, of Ormond, led the contest, but
she has dropped to second place, and
the Daytona young lady leads. Miss
Simrall's total vote at midnight was
8,283, a gain for the day of 200 votes.

Prof. O. A. Morse, of Deland, is among
the business visitors in the city to day.

H. C. Godman, and family of Colum-
bus O., have arrived for the season, and
are occupying the Newell residence on
Ridgewood Avenue.

Commodore J. H. Allen is engaged to-
day, weighing in the racers at the scales
near the Automobile Clubhouse. He
took the weight of five this morning.

ALL ALONG THE EAST COAST ...

W. C. EARP'S GREAT RUN.

Made 103 1-2 Miles on the Beach in an Hour.—Believed the Britisher Will Make Fine Showing.

Yesterday, Clifford Earp, in the new six-cylinder Napier, ran 103 1/2 miles in an hour, it is claimed, and this was made without pushing the machine. At times Earp was running with only part power, making a thorough test of the racer. The Napier people are delighted over the showing, and are very confident that the Britisher can make the two miles a minute, the aim of all the big races this year. Earp himself believes that he will be able to do it. To make this figure the Napier would have to add 16 1/2 miles to the distance claimed to have been covered in an hour yesterday morning, and when pressing the racer to its utmost, experts state that Earp can make this time.

Quite a number of other machines were out, but all took things easy.

Hamilton was compelled to abandon his aeroplane ascension yesterday afternoon, owing to the intense fog dampening his canvas, and greatly increasing its weight.

If conditions are favorable, an ascension will be attempted this afternoon.

Interest Revived.

Interest has been revived since the report was circulated that Vanderbilt's new 250-horsepower car would reach here on most any train. Quarters have been reserved in the Ormond garage, and as soon as possible after its arrival, the big machine will be taken out over the course. Sartori will drive for Vanderbilt. Hernery is also anxiously awaited, and the cubbed report that with his new 200-horsepower Darracq he had made a mile over the French road course in 33 seconds, leads to the belief that the three seconds can be clipped off here. Speculation regarding these big machines is at present turning on how they will weigh in, some fearing that they will be too heavy to qualify. This, however, is purely speculative, and the big machines may not exceed the weight allowed.

Boys Wanted.

Wanted, several boys with good lungs, to sell the Daily News on the beach. Apply at once at Daily News office

**Lost at Seabreeze, Ladies' Masonic pin, with initials "D. B. W." \$5 reward for return to T. F. Williams.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amplexicaule climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breeze from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadam and shelled roads and streets, rendering it the

Wheelman's Paradise
and added to these, but a mile away are thirty miles of smooth, hard beach that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric light for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
proper is about 1,500. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach
lies one mile east of the town. It is

located by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racetrack for America.

At low tide the beach is bare for 500 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-ringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at oblique, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula
lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature
at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly homes, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying.

Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona. At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, snapper, and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

Low Tide on the Beach.

High tide 4 hours before or after low tide.

J. D. C. Morris left Thursday afternoon on a trip to Jacksonville.

S. T. Corson, of Daytona Beach, who has been quite ill, is improving.

The dance given in the Armory last evening was, as usual, a success.

A meeting of the Halifax Rifles will take place next Tuesday evening.

Miss Donnelly, of Palm Beach, is the guest of her friend, Miss Florence Moore.

R. T. Motlow passed through here yesterday, enroute from Jacksonville to Titusville.

Cornelius Christiancy, of Jacksonville, was among the business visitors to the city Thursday.

Harry L. Brown, of the St. Augustine Record, was here yesterday afternoon on a business trip.

Charles Dougherty, a former Volusia County politician, is in the city for a few days, renewing acquaintances.

Miss Carrie Hernley, of Lafayette, Ind., has arrived to spend the winter with her sisters, at Daytona Beach.

****FOR SALE****—A Stanley automobile in perfect order, 143 S. J. Ridgewood, 17-41

J. M. Jones, an Atlanta traveling salesman, is in the city on business.

C. Fabian Law, of Green Cove Springs, who was formerly located here in the law business, spent Friday in Daytona.

Commodore and Mrs. H. C. Roame, are expected here on Sunday. They will bring their Reo auto along with them.

Mrs. A. G. Porter and son, Phillip, of Dayton, Ohio, are here for the winter, stopping with the Shepherds on Palmetto Avenue.

The work of erecting the addition to the Palmetto Club is being pushed rapidly ahead, and it is expected that it will be complete by the middle of February.

The dense fog, which prevailed yesterday afternoon and last night, was a source of much inconvenience. Those who ventured out became thoroughly drenched.

Mrs. C. S. Bray and daughter, Miss Maud, have arrived at Daytona Beach from Chippewa Falls, Wis., and have taken rooms at Mrs. Schied's, on Grandview Avenue.

A houseboat belonging to S. Ross Campbell, is a recent acquisition to the fleet of craft in the river. Mr. Campbell hails from Philadelphia. He also has a touring car with him.

Mr. Wharton, of Beverly, Mass., arrived a few days ago. He has leased a boat, and will leave after the races on a cruise South. He will be accompanied by Captain Ober.

For Sale or Rent—Furnished Cottage on Second Avenue, near Ridgewood; furnace heat, electric light, bathroom and complete sanitary plumbing. Geo. F. Brown, cor. 2nd & Ridgewood, 17

Shoes for the Whole Family.

Some people appear to think that it makes no particular difference where they buy shoes, that all shoe stores are about alike and that it's about the same thing everywhere. These people are laboring under a great hallucination of the mind, for there is fully as much difference in shoe stores as there is in the people who wear the shoes.

We've Shoes for Men, Women and Children, of certain styles and special makes that cannot be found in other stores, at near so low prices.

We have many styles in Black, Tan and Canvas, also Lawn Tennis.
